Email text:

Hi all,

On Sunday 23rd April we are running Soapbox Science Brighton, an event where a dozen women talk about their scientific research on Brighton beach by the i360.

Further details are at: <https://soapboxsciencebrighton.github.io>

We are looking for volunteers to help on the day. There are lots of different jobs needed on the day, from supporting individual speakers (e.g. getting the next prop ready, etc) to photographers (I'll be part photographer, part fault fixer on the day!).

If you are able to help, please do fill in the form linked from the webpage above (note that the form just goes to Leanne & Katy next door in life sciences).

To give you an idea of what to expect, take a look at this video I put together from last year's event:
<https://vimeo.com/309026479>

Note that because this event is not run by MPS, there is no budget for paying helpers - although, you will get lunch provided!

Many thanks!

Das

- Understanding cancer - Lasers & photonics -
- Enzymes Vs plastics - Fly brains - Quantum physics -
- Sustainability - Drug discovery - Responsible gambling -
- Attacking cancer - Surviving extreme environments -
- High energy physics - Preparing for emergencies -
